Telemetry: iOS/ANDROID APP (ERAVEND)

Capacity: 69 Pizzas

Size of Pizzas: 25.5 cm – 30 cm

Screen: 32 inch or 55 inch

Payment: PayPal, Crypto, Cash, Card payment

IP48 Certified

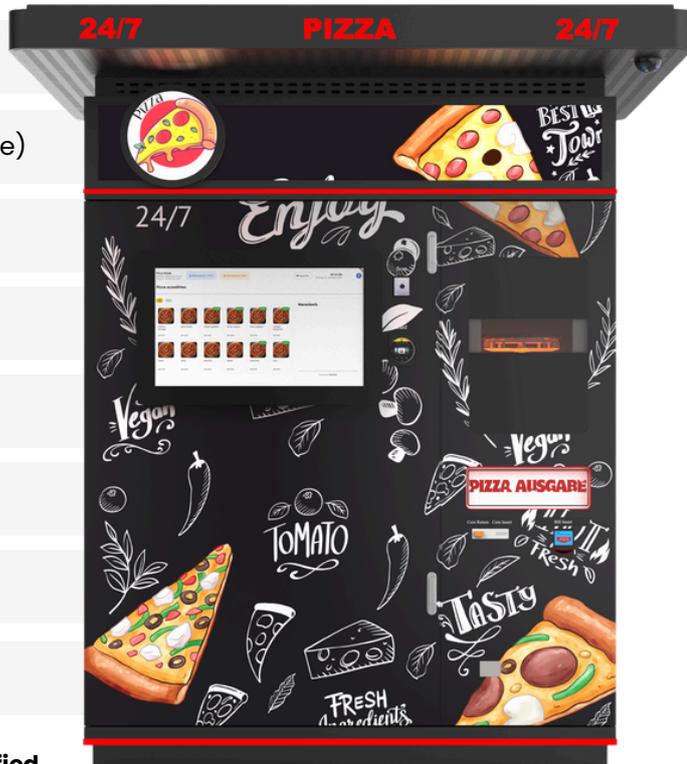

VDE Compliant

80+ Certifications

Certified

Stainless steel

Radiation against microorganisms (likely UV sanitization)

Alarm in case of fluctuations

Easy to clean

Temperature control

Cooling down to -18 degrees

PIZZAMAT V14

ERAVEND

Machine That Sets Standards

- **3000 NITS MULTITOUCH DISPLAY**
IP66 certified, sunlight resistant, available in 32 or 55 inch.
- **7-COLOR LED LIGHTING**
Adjust your machine's atmosphere anytime - impressive and visible.
- **VA4 STAINLESS STEEL BASE**
Absolute rust resistance - designed for decades of durability.
- **IPX5 CERTIFICATION**
Protection against water jets from all directions - tested and certified.

Build with **7+ years of Experience**

ADVANCED COOLING SYSTEM

Strategic Ventilation

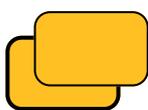

Four strategically placed ventilation openings ensure perfect air circulation and constant temperatures.

Maintenance Friendly

All technical components are easily accessible for quick maintenance and service.

Robust Construction

Reinforced back panel with integrated mounting points for maximum stability.

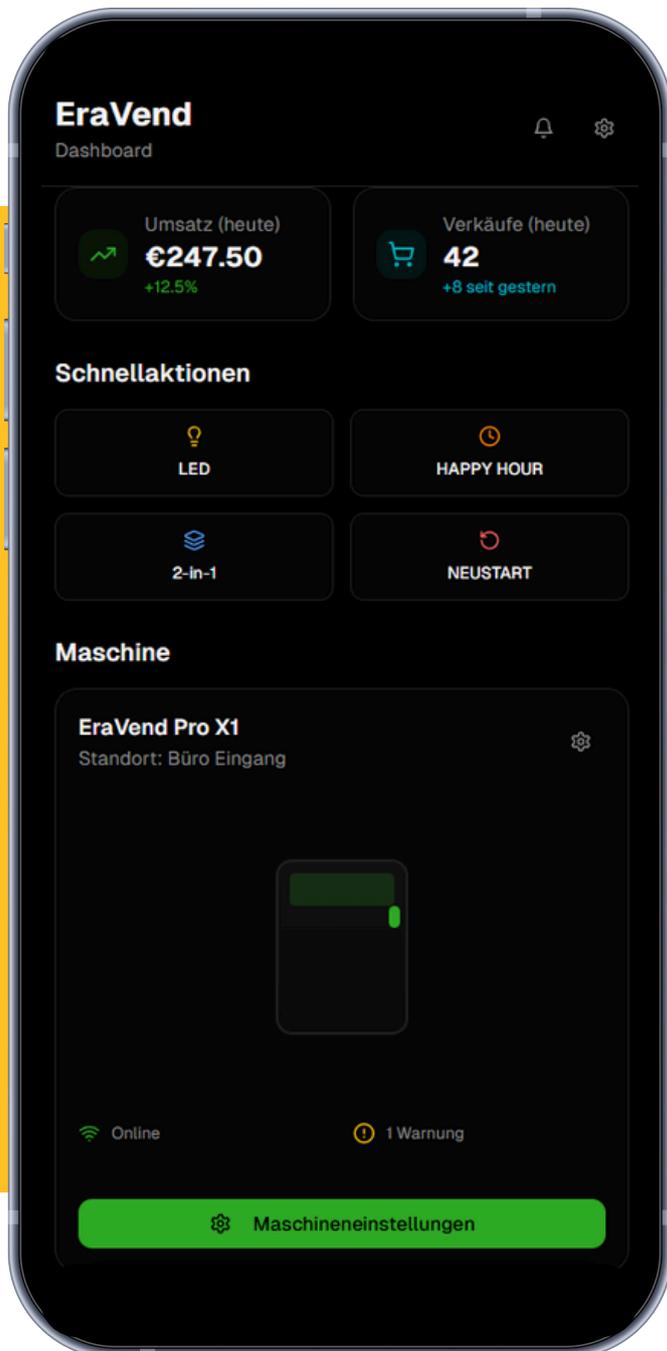

**Industrial Grade
Materials**

**Smart Cable
Management**

**Weather
Resistant**

ERAVEND CONTROLS APP

Creation of advertisements for the display

Notification for sales, low pizza stock, offline status, and errors

Setting of grill and baking temperature, including heating time per rack
Up to 4 preheat temperatures adjustable

Sales statistics for accounting

Camera view of the pizza machine

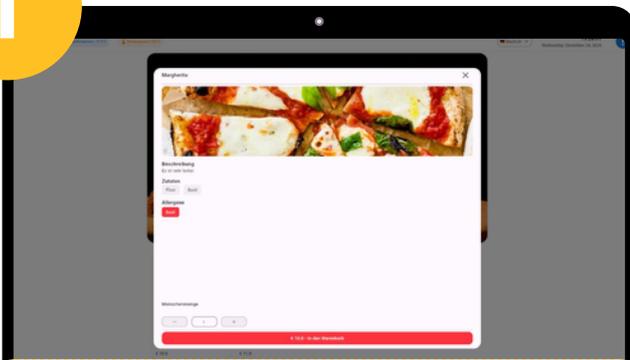

Track Power consumption

FULL REMOTE CONTROL IN YOUR HANDS

Outdoor advertising screen can generate approx. **€250/month**, reducing fixed costs accordingly.

ERAVEND

FIXED COST ASSESSMENT & OPTIMIZATION SUMMARY

Cost Breakdown

Electricity **€380**

- Pizza Machine: €350
- Freezer: €30

Location Rent **€100** Outdoor Placement Cost

Mobility **€200**

- Vehicle: €100
- Fuel: €100

Insurance and Digital Services **€156**

- Vehicle insurance: €50
- Machine insurance: €50
- App Monitoring: €42 - €150
- Card terminal fixed fee: €14

Advertising Offset

- **€250/month**

Outdoor advertising income directly reduces operational pressure. Fixed costs becomes significantly lighter.

Optimization Opportunities

Electricity

Save €100- €200

- Energy-efficient machines
- Improved insulation
- Commercial power tariffs

Mobility

Save €200- €300

- Shorter refill routers
- Fewer trips
- Fuel-efficient or electrical vehicle.

Location and Services

**Can be Optimized
based on Location**

- Revenue based rent 10-30%
- No fixed-fee card terminals
- Insurance comparison

ERAVEND

DAILY SALES SCENARIO & MONTHLY PROFIT OVERVIEW

Based on 29 operating days per month

Daily Pizzas Sold	Monthly Revenue	Variable Costs	Fixed Costs	Net Profit	Margin
20	5,550	2,130	586	2,834	51.1%
30	8,325	3,195	586	4,544	54.6%
40	11,100	4,260	586	6,254	56.3%
50	13,875	5,325	586	7,964	57.4%

*Currency in €

KEY INSIGHTS

MONTHLY SALES VOLUME

Selling **20–40 pizzas per day** already covers all fixed costs comfortably.

REVENUE VS COSTS

Profit scales strongly with daily sales. Fixed costs stay stable while margin improves.

PROFITABILITY

Net revenue per pizza is **€9.25** with variable costs of €3.55.

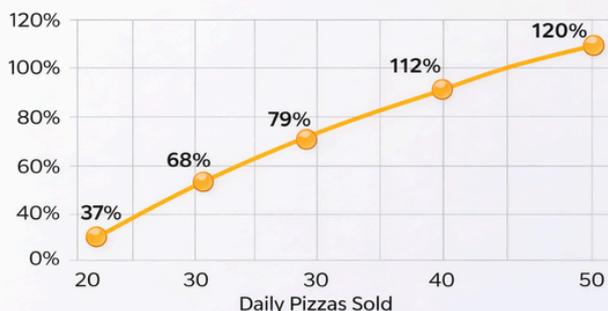

BEST-CASE SCENARIO

At 40 pizzas/day, **net profit reaches €6,254/month**, with the strongest margin and ROI.

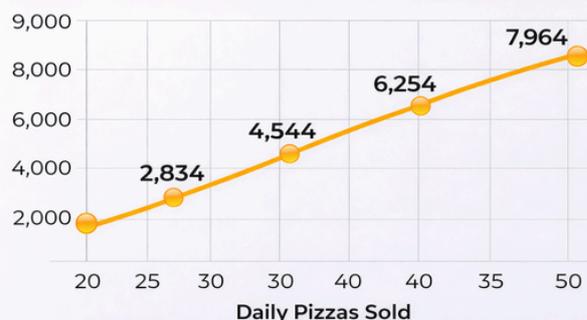

ROI vs. Daily Pizzas Sold

Highlights the increasing return on investment

Net Profit vs. Daily Pizzas Sold

Shows how profit increases with daily pizza sales
